30cm large magnetic coil, maximum output magnetic force can reach 30uh

3000W STRONG POWER SUPPLY

The unique 3000w ultra-high power supply ensures high-intensity output of the machine and the best treatment effect

12,000 KEGELS IN 30 MINS

FAQ

1.What is Urinary Incontinence?

Urinary incontinence is the involuntary leakage of urine caused by weak pelvic floor muscles leading to loss of bladder control.

2.Who is the treatment suitable for?

Women or men of any age who wish to address urinary incontinence, bladder leakage and improve quality of life or as a preventive.

3.Who should not use KEGEL MASTER PRO?

Pregnant women, people with metal implants or with tumors or heart disease.

4.What does a KEGEL MASTER PRO treatment feel like?

The treatment takes about 30 minutes and you can feel the muscles contracting, like doing Kegel exercises.

5.How quickly will I see results?

Usually, two or three treatment sessions.

6.How long do the results of the KEGEL MASTER PRO treatment last?

Efficacy varies from person to person, most can reach one year

- Non-invasive
- No recovery period
- Fully clothed throughout treatment

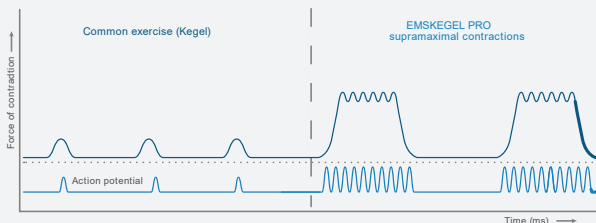

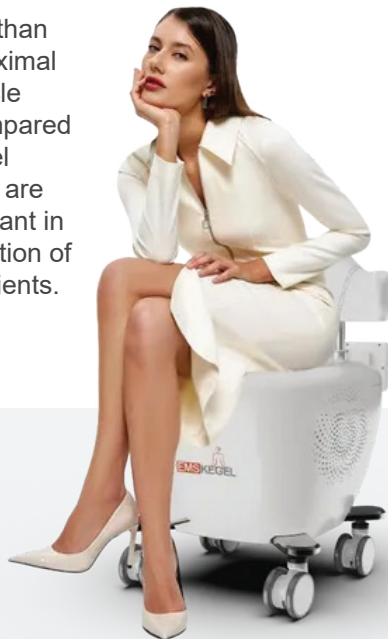

WHAT IS THE KEGEL MASTER PRO CHAIR

The KEGEL MASTER PRO chair is a non-invasive and painless device for the treatment of pelvic floor muscle weakness, urinary incontinence and vaginal muscle laxity, utilizing High Intensity Focused Electromagnetic pulses to stimulate deep pelvic floor muscles and restore neuromuscular stimulation!

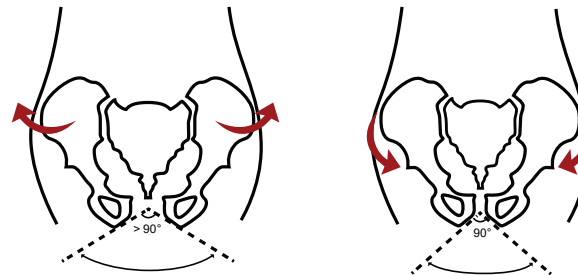

Key effectiveness is based on focused electromagnetic energy, in-depth penetration and stimulation of the entire pelvic floor area.

A single KEGEL MASTER PRO chair session generates more than 12,000 supramaximal pelvic floor muscle contractions compared to common Kegel exercises, which are extremely important in muscle re-education of incontinence patients.
